A Letter From Father Tim

DEAR FRIENDS,

Well, our 30th anniversary year has been one for the books.

Yes, we have much to commemorate. It's hard to believe that three decades ago we operated in a hallway with folding chairs and a pot of coffee – simply a place to get out of the cold in the winter. We are so proud of how far we've come – we have reached the point where we are able to provide nutritious meals, medical care, social services, and personal hygiene support for Detroit's most vulnerable citizens year-round.

But then – as is so often the case – life threw us a curve ball. COVID-19 struck in the midst of all the important relationships we've been fostering, services we've been coordinating, and plans we've been making.

We immediately saw a growing demand – many new faces at the Center each day, including families with children who were no longer receiving meals at school and people who were losing their jobs and their homes. Other nonprofits were forced to greatly reduce or completely stop service.

Yet, thanks to the strength and support of our community, the Pope Francis Center was able to persevere in our mission.

Of course, we had to find new ways to provide Detroiters experiencing homelessness with the services they so desperately need.

Due to necessary safety protocols we shifted from communal indoor

“Time and again, as we’ve envisioned a better future for our guests, you have answered the call to join us as we strive to create a community of compassion, where no one is excluded.”

dining to distributing our nutritious meals street-side in individually pre-packaged containers, which guests can eat outdoors at recommended distances from each other.

We installed four heated tents to offer guests respite from the cold in the parking lot across from the Center. And, to support necessary hygiene, we installed four outdoor toilets, three handwashing stations and a six-stall mobile shower unit. Most recently, we've resumed our free laundry services.

We also set up a space for a volunteer physician to proactively provide medical screening and support. The *Wall Street Journal* even applauded the way our team was safely helping homeless Detroiters address the threat of the virus.

All of this was accomplished in a matter of weeks thanks to an amazing group effort. Our staff never considered suspending our operations – it was only a question

of HOW we were going to continue in light of the pandemic. And you, our donors and volunteers, helped make this possible by providing an amazing outpouring of support.

In the process, we've learned lessons that can be implemented as we face new concerns and opportunities.

While current operations have worked as a temporary measure,

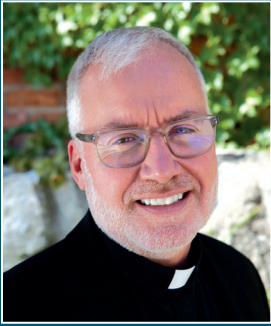

the Center once again finds itself confronting a crisis. We face a long winter ahead with COVID-19 firmly maintaining its grasp on Detroit's neighborhoods. Our current space within the Center is not large enough to accommodate 200 guests per day with safe social distancing. Therefore, we are exploring every option to find innovative ways to support our guests. We continue to have bold plans to meet the basic human needs of our guests no matter what comes our way. Time and again, as we've envisioned a better future for our guests, you have answered the call to join us as we strive to create a community of compassion, where no one is excluded.

Thank you for everything you do. I am so grateful that you are part of the Pope Francis Center family!

A handwritten signature in blue ink that reads "Fr. Tim". The signature is stylized and includes a small flourish at the end.

Fr. Tim

An Inspiration to Others

Tony was just 13 when he ran afoul of the law for the first time. By the time he went to prison three years later, this young man who grew up on Detroit's east side was looking at 25 years behind bars.

Throughout the ordeal of navigating life in prison, Tony was somehow able to maintain his decency, his integrity, and his humanity. He protected younger guys who, when they were released, had been so affected by his help that they visited his mom because they wanted to thank him.

After he was released, Tony still felt that sense of hopelessness he had as a child. He spent time on and off the streets for six years, staying in shelters occasionally. Tony says he had "just felt like there was no way out. Guys in my neighborhood go through a lot mentally, and some who commit crimes are just looking to get out of their hopeless situation."

At one point, though, he found his way to the Pope Francis Center. All he wanted was to sleep; he was too despondent to do much else, including eat. But he got to know the staff, and ever so slowly, he was able to develop friendships and enough trust to ask for help in finding housing.

"The guidance and everyday support offered at the Pope Francis Center helps guests to change. You are different because you put other people first – not like some other agencies that just treat us like a number."

Tony's reluctance to trust was no surprise to the staff at the Pope Francis Center. A lot of the time, people who are experiencing homelessness don't want to go to

shelters because they have been victims of crimes, victimized by others in the streets, and they lose trust in people, they lose trust in themselves.

It's why we work so hard to be known in our community as friendly faces in a safe place. And when a person is ready – and only then – we utilize our relationships with community service providers that offer permanent supportive housing and employment opportunities, and assist guests who are eligible to transition into a more independent lifestyle. That's how, since the summer of 2019, we have helped 45 people transition into stable housing.

On July 1st Tony moved into his new place, complete with furnished, bedding, towels, cleaning products and plants provided by the Pope Francis Center.

"Some guys don't know how to ask for help – especially if they don't have faith in friendship. I realize now that people like me put up roadblocks through their behavior, but I hope others realize they need to 'give God a chance' by hearing my story," he says. "The guidance and everyday support offered at the Pope Francis Center helps

And just like he did with those young guys back in prison, Tony has a goal to help people. He comes back to the Pope Francis Center to let the staff know he's doing okay and to talk to our guests and let them know, "If I can do it, you can do it."

Programs and Services

Thanks to your commitment, the Pope Francis Center welcomes 200 guests on average every day. We strive to create a community in which every person is valued and appreciated, especially those who live on the margins of society. Through our programs and services we are creating a community of kinship, where every person can recognize and develop their sense of their own inherent dignity in a safe environment.

Hygiene

Taking a hot shower, putting on clean clothes, and brushing our teeth are things most of us take for granted. Not so for our guests. Every day we see the small miracle that simple hygiene creates. Our guests suddenly remember their inherent dignity and value. Clean clothes protect our guests from the threat of frostbite while wearing wet socks, gloves and other garments in winter temperatures. Good hygiene also helps alleviate health concerns such as body lice, gastroenteritis, and skin infections.

Thanks to you – even during the restrictions designed to protect people from COVID-19 – we are providing guests with access to private showers and shaving stations. We distribute toiletry kits, clean socks and underwear, and other items as needed. Thanks to a recent partnership with a local laundromat, our guests can now get access to clean clothing even though we've had to limit access to our own washers and dryers.

Nutrition

Nutritious food is fundamental to life and providing it to our guests supports both their mental and physical health and wellbeing. COVID-19 distancing guidelines may have affected our guests' ability to enjoy a sense of community by sharing a meal around a table, but thanks to your support, they continue to enjoy ample nourishing food in individually pre-packaged servings. In addition to serving two fresh, hot meals each day, we increased our distribution of to-go meals that include fresh sandwiches and fruit, bagels, granola bars, and healthy beverages.

Free Clinics

COVID-19 doesn't discriminate, but its disproportionate effect on those with pre-existing health conditions and limited access to proper hygiene items and services, medical care, and nourishment is undeniable. This year we continued to offer a variety of free clinics for this vulnerable population, including legal and social services, housing assistance, sobriety support, foot care, dental care, haircuts, and bike repair.

Medical support has become even more important during the pandemic. Thanks to our dedicated health partners, Pope Francis Center guests received regular medical assistance, including COVID-19 screenings, wound care, and treatment for chronic and urgent health conditions.

By the Numbers

Numbers are important. They keep us accountable, and they tell you how your gifts are used. We work hard to make sure that a high percentage of our expenses go straight toward the programs that serve our guests. The statistics here illustrate how many nutritious meals we served, how many people we helped transition to permanent housing, how many COVID-19 tests we performed, and much more.

But numbers don't tell the whole story. It's impossible to quantify the hope that's instilled, the dignity that's restored, or the love a person feels when he or she is greeted warmly, enjoys a tasty meal, or can take a shower. This is what your support provides – immeasurable benefits to our most vulnerable neighbors in a safe, caring environment. THIS is the impact of your gifts.

From Homelessness to Housing

Each day, Pope Francis Center staff and volunteers are dedicated to creating a place where our guests feel at home.

But that's not the ultimate goal.

Our main objective is to empower individuals to transition from life on the streets to permanent housing and independent living, and to help our guests move beyond mere survival and find ways to improve their quality of life.

That's why we are building relationships with community service providers who offer permanent supportive housing and employment opportunities.

And it's why our next chapter focuses on bold plans for an innovative Bridge Housing Program to provide guests with the tools they need to change their lives.

Just ask Otis.

“The Pope Francis Center provided a lifeline for me,” he says. “I am finally at peace with my life again. You changed my life – you saved my life – and I feel like I have purpose once more.”

For many years, Otis held jobs that helped others. He worked at a transitional housing facility for people suffering from substance use and mental health issues, and at a residential reentry center (also known as a halfway house) to help men transition out of the prison system.

And then he lost his job.

As is the case with so many people who find their way to the Pope Francis Center, the only buffer between having a place to live and becoming homeless is a paycheck or two.

Otis ended up being homeless for five months.

“Fortunately, I heard from a friend that the place to go when you're experiencing rough times is the Pope Francis Center,” he says. “My friend knew what he was talking about. In my old job, I learned how homeless people are, what they need, and what will help them. The Pope Francis Center does it right.”

Our staff worked with Otis every day, helping him to get the paperwork completed to find housing. And he finally moved in, just as the pandemic was starting.

Unfortunately, he had no couch or other furniture. He was sleeping on the floor. And he had no money for a bed. But when Otis told people at the Pope Francis Center, donors and other supporters jumped into action and provided enough furniture to fill his new place.

“The Pope Francis Center provided a lifeline for me,” he says. “I am finally at peace with my life again. You changed my life – you saved my life – and I feel like I have purpose once more.”

Benefactors

A donation to the Pope Francis Center is more than a gift; it's an expression of your caring for our guests – a sign that we are all together on this journey. You are providing guests with a meal... offering them clean socks... treating their wounds... connecting them to a social worker, doctor or lawyer.

But your donation is even more than that. A gift to the Pope Francis Center is a recognition of shared humanity and kinship. You are helping to create a circle of compassion that grows each day – meeting people at the margins of society and then erasing those margins until we recognize that we are all the same in God's eyes.

In the following pages, we celebrate and give thanks for all who have accompanied us this year to help our guests unlock their human potential and realize a brighter future.

This list reflects contributions as of June 30, 2020. The Pope Francis Center has made every attempt to record an accurate list of donors. If we have overlooked your name, or there is an inaccuracy, please accept our apology and let us know by emailing us at joe@popefranciscenter.org. Thank you for your generous support!

FEEDING.SERVING.EMPOWERING.

Hope in Harrowing Times

The COVID-19 pandemic has affected everyone, but Pope Francis Center guests and operations have been hit especially hard.

Since the beginning of the outbreak, our numbers have climbed. We've doubled the quantity of meals we serve each day. Unfortunately, our costs skyrocketed too, as we brought in tents, heaters, mobile showers, bathrooms, and handwashing stations. The incremental cost of these service elements exceeds \$45,000 per month.

However, while other nonprofits were forced to greatly reduce or completely stop service during the crisis, the Pope Francis Center was able to continue in our mission. As one guest put it, "When the epidemic came, the Pope Francis Center was a blessing, because a lot of places closed their doors...But you gave us a home...You give us the things to make our day a little more complete. It amazes me to come and get clothes and a meal and a shower...You are a blessing to this community."

When the pandemic forced us to cancel our annual Gala, we were looking at a very serious financial crisis, so to cover our ballooning expenses, the Pope Francis Center launched its "Hope in Harrowing Times" campaign in early May. Thanks to our major sponsors and donations from more than 1,000 people from all over the country, the 10-day community matching campaign raised \$635,000.

With you we stand firmly committed to Detroit's most vulnerable citizens throughout this harrowing time. Thank you!

Reaching Our Goal and Then Some!

Since 2016, the Pope Francis Center has sponsored a crowdfunding campaign every late summer/early fall to raise dollars for improving and expanding our current services. THRIVE seeks to support new initiatives that will help our guests move beyond mere survival and find ways to improve their quality of life. It's also a lot of fun for everyone who participates.

In 2019, our THRIVE campaign had a goal of "Raising \$60K in 30 Days" to support the launch of a mental

health and substance use program, tackling two of the toughest issues facing homeless people in Detroit. We're excited to report that our community came through with \$67,336 to provide support services from the moment a person first reaches out for help, through long-term stability and sobriety.

Check out these photos from our "Off-Road Rally" neighborhood-wide scavenger hunt, "Bags N' Brews" tournament, and "Cruise For a Cause" events.

SPECIAL NOTE: Photos are from 2019, prior to the pandemic. Stay tuned for next year's report of fun and fundraising from the 2020 THRIVE program. And please watch for announcements to participate in 2021!
